Device Credentials

The screenshot shows a web browser window with multiple tabs. The active tab is 'Service Details - IBM', displaying the URL `qf6d3g.internetofthings.ibmcloud.com/dashboard/devices/drilldown/Raspberry:1111?returnTo=/devices/browse`. The page title is 'IBM Watson IoT Platform'. The user is logged in as 'aghalyp@student.tce.edu' with ID 'qf6d3g'. The page is titled 'Device Drilldown - 1111' and features a left sidebar with navigation options: Device Credentials (selected), Connection Information, Recent Events, State, Device Information, Metadata, Diagnostics, Connection Logs, and Device Actions. The main content area is titled 'Device Credentials' and includes a warning: 'You registered your device to the organization. Add these credentials to the device to connect it to the platform. After the device is connected, you can navigate to view connection and event details.' Below this is a table of credentials:

Organization ID	qf6d3g
Device Type	Raspberry
Device ID	1111
Authentication Method	use-token-auth
Authentication Token	12345678

A warning icon and text state: 'Authentication tokens are non-recoverable. If you misplace this token, you will need to re-register the device to generate a new authentication token.' At the bottom, there is a link: 'Find out how to add these credentials to your device'.
